By Jill H.

If you want your Christian beliefs validated in a history book, this is the textbook for you. If you want actual history, look somewhere else. A history book that sidesteps evolution and doesn't dare mention Darwin and Linnaeus on the chapter on evolution gave me cause for concern. Then upon seeing a bible verse on Jacob and his spotted sheep used as an example of artificial selection just made me cringe. I may drop this class as it has lost all credibility in my eyes.

I had to purchase this textbook for a college course I was taking. I really enjoyed this textbook better than the World Societies textbook (hands down). This textbook has subtitles for each section for each civilization and it makes for an easy read.
