Review

Review from previous edition: "This text is a thorough undertaking which manages to be both accessible and easy to read, yet comprehensive and scholarly in its approach.....the author manages to bring to life what is traditionally perceived as a rather dry subject by showing its direct relevance to modern commercial realities."

- --Severine Saintier, Legal Studies
- "Although academic takes on the preliminary reference procedure are well known, the book under review stands out as certainly the most detailed expose of the key issues related to the procedure in recent years. Besides its satisfying richness, the book is strictly legal and written in the best traditions of legal scholarship sensu stricto, which is an overwhelming pleasure to read for a lawyer...recommend that your library order this book."
- --Dimitry Kochenov, Legal Issues of Economic Integration.
- "This new work, written by a leading Cambridge academic, is in my view now the best one stop introduction to agency available for practitioners and law students alike... The quality of the work is impressive and this essential work should form part of all academic law libraries and the law libraries of any firm of solicitors or set of chambers operating in the commercial field."
- --Bankim Thanki QC, Fountain Court Chambers 2010
- "...whether you are student, academic or busy lawyer, this is a short book from which you will find it difficult not to benefit"
- --Andrew Tettenborn, University of Exeter 2010
- "To tackle this reasonably 'new' area of the law of agency in a general book on the topic further helps to

highlight the relevance of agency as a modern commercial marketing tool for businesses. Overall this contribution represents a very useful addition to the scholarship in this area and will assist many readers to further their understanding of this fascinating area"
