A MUST HAVE for any 40K fan

By Savage Shark

This is one of the best graphic novels I have ever read for the warhammer 40,000 genre. The story is amazing and the characters are awesome as they are memorable. The art approach is just as spectacular from the armor of the space marines to the insanity of the worlds of Chaos within the Eye of Terror.

Warhammer readings

By Edward Denison

This was in fair condition and is a good Novelette or illustrated novel. The reading is light and somewhat duplicative of other adventures before. But is still an interesting read.
