# CELEBRATE (AVIAN SHIFTERS) BY KIM DARE PDF

It's not easy learning how to be a swan, but Ori Jones has worked hard to embrace a role that still doesn't come entirely naturally to him. Now, almost a year after his first full shift, he finally feels as if he is making a difference at the Anderson nest.

Ori's happier than he'd ever been, until a few words from his master, Raynard, suddenly bring all of Ori's old fears rushing back to the surface.

The nest's elders want to have a party for Ori's birthday, but Ori can't see any reason to celebrate in it being a year since he reached his avian maturity. After all, what's the use in learning to be a good swan when Raynard never wanted a swan in the first place?

Please Note: This story is best read in order as part of the Avian Shifters series. The previous book is Duck! and the next book is Magpie.

I adore Ori!

By Jacqu

It wasn't that long ago I had the pleasure of reading Duck! and fell in love with Ori and Raynard's story. It was such a sweet yet sad story and once they got their HEA I moved on to my next read but thoughts of how their love story would continue, would Ori manage to change the nest, lingered on. Lucky me Ms. Dare wrote another story, really a simple novella, that answered my questions.

It's been almost a year since Ori first full shift into a swan. He's happy in his submissive role to Raynard, adjusted to his life as a swan and the changes he brought to in the nest. When the nest elders want to have a party to celebrate Ori's birthday, suddenly he's not so sure of himself. Just a few words from his master, brings all his doubts back. Ori tries to be a good swan and submissive but what's the point when Raynard didn't want a swan in the first place.

Celebrate was a quick read but it brought back fond memories of Ori. His insecurities are still there but Raynard is there to help him along. We get a quick revisit with Hamilton (which I'm still on the fence about him) as well as a trip into the nest. It was nice to see how Ori has made a difference in the nest and how he went from a unwanted ugly duckling to a beloved swan. Raynard is still the perfect master for Ori. How he manages to instill in Ori he is still all he could ever want in a sub was just as satisfying in Celebration as was in the previous book. A must read for all fans of Kim Dare's Avian Shifters series!

I received this book from the JeepDiva for the express purposes of an honest review. The opinions and rating of this review are solely mine and in no way was I compensated.

I loved reading more about Ori!

By fanfic3112

Duck was my first male/male romance and my first BDSM read and it is still one of my favorites. I was so excited when Magpie came out but Celebrate was just icing on the Avian shifter cake! I love the world building that went into the nest and I loved how it stayed consistent in both Magpie and Celebrate. Ori is the same adorable awkward nervous little Avian despite finding out he was a swan and I adore his Master who combines control and eroticism in one secure comforting package wrapped perfectly around Ori with a strip of black leather. I love that he is still learning his role as a swan in the nest and that his master does not allow the hierarchy of the nest to force Ori into a role that would overwhelm him. He supports Ori while never being any the less the master. It was so great returning to the world of the nest and I am so hoping there will be another book coming soon! I can't wait to read more! The life of the nest, it's characters, their roles in society and how it's told thru their avian characteristics and the pecking order is fascinating!

Hot addition to Ori and Raynard's story

By JJ

Ori's nest has put together a celebration for the occasion of Ori's first year anniversary of shifting into a swan. Ori is getting used to his new status as a swan, but he still doesn't see a reason to celebrate. To add to his worries, he thinks that Raynard forgot his anniversary date. Though Raynard has been his master for over a year, Ori still has insecurities about their relationship. When the celebration is over, Raynard has a surprise for Ori.

This story was extremely hot. I love the way Ori submits so fully to Raynard without thought of his own needs and desires. He's the perfect submissive, and Raynard is the perfect dom. Since the next book in the series, Magpie, appears to deal with another couple, I was so glad to revisit Ori and Raynard. Celebrate was short, but well worth reading. I can't wait to read the next installment in this series, and I hope to see more of Ori and Raynard even if their on the sidelines. I recommend Celebrate to anyone who loves BDSM, M/M Fantasy, and M/M Erotic Romance.
