COMMUNITY/PUBLIC HEALTH NURSING: PROMOTING THE HEALTH OF POPULATIONS, 6E BY MARY A. NIES PHD RN FAAN FAAHB, MELANIE MCEWEN PHD RN PDF

Covering the nurse's role in promoting community health, *Community/Public Health Nursing, 6th Edition* provides a unique 'upstream' preventive focus and a strong social justice approach in a concise, easy-to-read text. It shows how you, as a nurse, can take an active role in social action and health policy – especially in caring for diverse and vulnerable population groups. Written by community health nursing experts Mary A. Nies and Melanie McEwen, this book offers clinical examples and photo novellas showing how concepts apply to the real world, and describes the issues and responsibilities of today's community and public health nursing.

- **UNIQUE!** 'Upstream' preventive focus addresses factors that are the precursors to poor health in the community, addressing potential health problems before they occur.
- **UNIQUE!** Emphasis on community aspects in all steps of the nursing process highlights the community perspective in all health situations.
- **UNIQUE!** A 'social justice' approach promotes health for all people, including vulnerable populations.
- **UNIQUE!** Photo novellas use photographs to tell stories showing real-life clinical scenarios and applications of important community health nursing roles.
- **Research Highlights** boxes show the application of research studies to the practice of community nursing.
- **Clinical examples** offer snippets of real-life client situations.
- **Case Study: Application of the Nursing Process** feature presents practical and manageable examples for the theory, concepts, and application of the nursing process.
- **Ethical Insights** boxes highlight ethical issues and concerns that the community/public health nurse may encounter.
- **Objectives, key terms, and chapter outlines** at the beginning of every chapter introduce important concepts and terminology.

- **NEW and UNIQUE!** Veterans' Health boxes present situations and considerations related to the care of veterans.
- **UPDATED** Economics of Health Care chapter addresses the latest changes related to health care reform.
- **UPDATED** Healthy People 2020 boxes include the most current national health care objectives.
- **UPDATED** Communicable Disease chapter covers current public health surveillance and outbreaks of emerging health threats, including emerging infections (e.g., H1N1, SARS, West Nile virus).

Poorly written and organized

By RN Student

Very poorly written textbook. It reads like a 650 page APA-formatted paper. It's repetitive, not just from chapter to chapter, but from paragraph to paragraph. I literally have had the feeling of déjà vu several times while reading different chapters. It cites authors with no explanation for them as in who they are or what they do or why we care about what they have to say. There is very little emphasis on important theories or applications. Mentions of what "this author" has done shouldn't even be included. The fact that you used a theory in your work means nothing to me. Who are you? I can't believe this is the sixth edition of this muck.

I've attached a pic of one of the expertly written chapter summaries. (sarcasm)

5 of 5 people found the following review helpful.

The content of the book is easily read and understood

By Anna Bast

Very poorly formatted e-book. The tables and charts are quite distorted and difficult to interpret. The content of the book is easily read and understood, and as far as a nursing textbook goes this is a leisurely read. I would recommend renting a paperback copy because the e-book is difficult to navigate, and so many of the figures are poorly formatted. Not worth the convenience of an e-book.

Poorly formatted e-book.

By Michael J

Be sure to download the preview before committing to this book. I found the Kindle format to be poorly done. It is not the same layout as the textbook. Instead of columns of text, you get a single full page view with the text expanded to fill a frame like you might expect if you were reading a novel. I usually buy kindle versions of my textbooks, but this one missed the mark. You're better off with the Pageburst Kno version, especially if you're using a tablet and want the book to look exactly as laid out in the textbook.
