Con brío!

By Minetta Minnick

This was a required book for my Spanish class, however I ended up having to re-purchase it through the school, because I also needed the hard back that came along with the CD. Now I'm stuck with this extra softback book :(

ridiculously expensive

By Wanda K. Mohr

Nice format. Friendly and accessible. BUT, at this price I understand why the feds have intervened in the free market of textbook publishing. This thing is absurdly expensive. Seems to me that it can be published a whole lot cheaper than this, especially insofar as there is not much to distinguish most Intro to Spanish textbooks from each other. I can afford the cost of this book, but let's get real, not many college students have money to throw around in these sums. AND this would be only for one course. Add the workbook and we are talking about > \$200.00.

Great book but missing Internet code

By jcoyne

Book was in fine condition and shipped quickly. We did, however, discover that there is a small card that comes with this book with a code to use the connected web site. So, beware! Make sure the card code is included otherwise, like me, you will wind up paying \$55 for a key code on the website.
