Belle Stuart walked into my life with crimson lips, and a smart mouth to match, that made it impossible not to put her in her place—and on her knees.

She should be off-limits. Claiming her was reckless. Keeping her is dangerous. But she's more than a conquest, she's my obsession.

I'll do what it takes to protect her, even if it means letting her go.

But she's the one woman I can't give up. She's the one woman I can't stop craving.  
She's the one I covet...

just waiting for something bad to happen

By DMarie216

Covet Me is the second installment to Belle and Smith's story. If you have not read Crave Me, hurry and get on it and do not read any more of this review. Covet Me begins where Crave Me left off, that major cliffy that we were shocked with. Smith was married! If he has a relationship with Belle, how can he keep this a secret from her? Smith has deep dark secrets, they are very dangerous ones. What happens now that Belle is caught up in Smith's web of deceit and lies? Is Belle in danger? Covet Me is one of those books where you have your hand on your chest the entire time, just waiting for something bad to happen. The angst will keep you on your toes, flipping page after page to find out what happens next. Smith is a mystery, but he's so charming, how can Belle ever steer clear of a man like him?

"This separation won't last. We-I corrected her- are forever"

"Just one taste. One stolen kiss. One bite to her pale shoulder. One hand wrapped around her slender throat. One more moment."

Geneva Lee is a mean evil woman. She loves to torture her readers with sex alpha males who have the charm and the arrogance that makes you drool and beg for a s\*\*\*\* at them. I fell a little more in love with Smith and I may have a girl crush on Belle. She's a hard working, strong woman with a good head on her shoulders. She's a no non-sense kind of girl and will do anything for those she loves. Geneva Lee has brought us two characters we can't help but love and root for on this crazy journey of theirs. I just hope Smith and Belle can somehow get their happily ever after one day. Don't expect any fluff, Covet Me is full of danger and it's ohhhh so delicious! I may or may not have sent some nasty messages to the author at the end for her evil

ways of stringing us along on this wild journey full of hope, love and danger. Hold on tight, this will be a very bumpy ride. Capture Me releases in December and I'm already counting the days until it's in my greedy little hands.

5 Brilliant, Royal stars for this sexy and suspenseful tale.

By Hilary\_The Read Report

Sex. Scandal. Betrayal. Lies. Revenge. These all make up this delectable book, Covet Me.

Belle and Smith are sneaking around in order to keep Belle safe from Hammond, but they can't stay away from each other. Their lust and love consume them, leaving them craving each other's touch, presence, next breath. But what happens when their plot to hide from Hammond fails? What happens when the other puppet masters are pulling strings and demanding their separation. How will they cope?

Belle is fully immersed in bringing Bless to fruition with the help of her friend. Her biggest dreams are just within reach. Smith is so close from his freedom from Hammond he can almost taste it. But will he?

The writing is magnificent; seducing you from page one and leaving you breathless. The pages are filled with adrenaline evoking suspense that will have you holding on tight for this emotional roller coaster ride and never wanting to get off. The ending left so many loose ends that I will be eagerly awaiting December just to get another taste of this author's brilliance.

5 Brilliant, Royal stars for this sexy and suspenseful tale.

By the end you will fall back in love with him

By queenzany

OMG you have outdone yourself Geneva Lee with this book! Let me say I started off disliking Smith at the start of this book. By the end you will fall back in love with him. It does have some major twist! This book far exceeded my expectations. I own everyone of her books. This is one seems to be the very best!

Now Why do I have to wait 2 months for the next book?
