Fun Fun Fun!

By E. Helms

This is an awesome how to draw book.

First, though this book is or the younger crowd it is full of wonderful character design examples. It is easy to take these characters as bases and expand upon them.. basically.. great for the child of any age :) My be borrowing this from my daughter often.

Second, I love the binding. It is designed to lay flat no matter what page you are on so you don't have to find a paper weight or prop the book open while drawing one of the subjects.

Finally, great price for what it has to offer for young and old.

By Lacy P.

My kinder kids love learning to draw during a whole class guided group lesson. Each drawing take about 5 minutes when making sure all 23 children have added each line, and I go very slowly. Then they can practice on their own another time. :-)

By P.T.

This book is so much fun to work with. I love to doodle but was never good at it, but this book will show you very simple steps to really cute drawings. I brought a couple for my little cousins for X-Mas.
