Great series

By Sandy S.

HE'S A MAGIC MAN (Children of Merlin #2) by Susan Squires

HE'S A MAGIC MAN is the second novel in Susan Squires' Children of Merlin series relating magic and power to the descendants of Merlin-the Tremaine family. The belief that each descendant would come into their power and magic, when they meet the one person that will unlock their destiny, is the premise behind the Children of Merlin.

Drew Tremaine had hoped that she found the one to unlock her magic but finding out that he had a bevy of women at his beck and call more than proved that he was not the one. But watching an episode of 'Treasure Hunters' Drew found herself inexplicably drawn to a man in the background of the show. Could this man be her destiny? The one? And with the questions came a vision of the future that found Drew somewhere in the Florida Keys. But she had to be careful if her family discovered that she was heading to the Sunshine state alone, looking for a stranger that she knew nothing about.

Michaelangelo (Dowser) Redmond was getting drunk and needed to stay numb to forget the past. And when a beautiful woman came looking for him in the sleaziest bar in town, he knew there would be trouble. But he never expected to find himself tied to his own bed while Drew Tremaine played nursemaid to his hangover and detox DTs. A former Delta Forcer Operator, Michael could not believe his reaction to Drew or the sexual chemistry that came between.

Dowser was psychic and his special ability meant he could be the 'one' for Drew. But Dowser's revelations about his past dampened Drew's excitement when she learned there was someone else.

Dowser's latest job involved a treasure hunter named Brandon St. Claire and his girlfriend Rhiannon, and he wanted Drew along for the ride. Finding the Santa Angela would ensure a healthy pay day for Dowser, and using his psychic powers to 'find' made the job that much more easy. But Brandon St. Claire wanted Dowser to find something more and when he did, they promised to bring someone back from his past- a promise that he didn't know if they could keep.

Drew and Michael's relationship is difficult at the start. Believing Michael is her destiny, Drew continues to nurse Michael back to health following their run-in at the bar. But as the days go by, the sexual tension increases and neither is willing to admit to their desire. And Michael is having difficulty releasing the memories from his past. And the longer the two are together, the more powerful their magic becomes.

Throughout the novel we are aware of a secondary storyline regarding a search for a talisman-a mystical sword. And Drew's visions are some how connected. With the continuing threat against her family and the Children of Merlin mystery, there were others hoping to use the power for themselves and Drew's escape to the Florida Keys had put her in more danger than she had ever thought possible and the very real possibility that she would lose Michael forever. And the entire Tremaine family was now in danger, when Michael revealed the truth behind Drew's connection and the sword.

HE'S A MAGIC MAN is another fantastic addition to Susan Squires' Children of Merlin series. Well written, fast paced, action packed and at times a heart breaking storyline that had me dabbing a few tears. The character development flowed easily throughout the story and in the end you loved the Tremaine's as though they were your own family.

Strong second story in the Children of Merlin series

By cad

This is the second book in the Children of Merlin series. A well written page turner that started out with a bang however fizzled a little for me bc Drew and Michael's love is overshadowed by his first love. Micheal's first wife is a written as wonderful caring women who almost outshines Drew. Nonetheless I enjoyed the story very much and look forward to reading about the other destined mates of the magical Tremaines.

Readable, at least

By Kali Nix

I got this as a Goodreads Firstreads win, so I'm going to summarize a few points here while the book is still fresh in my mind since I don't have time for a fully involved review:

1. Felt like it took too long to read.

Why? I'm a fast reader. I can get through the early books of the Wheel of Time in 3-5 days. This one, at (less than) half that, took me to the far end of that scale. The first half of the book kept my interest nice and fast, but the more I read, the less I started caring about what happened to the people, or in general.

2. Been there, done that.

The descendants of Merlin, and people who get their power from Morgan La Fey. Athurian-era artifacts. Anybody remember Stargate SG-1/Atlantis?

3. The raging alcoholic.

Okay, score for throwing this in as a twist, and giving Drew the balls to do what she did. However... we're talking, what, a week? Alcoholism doesn't just go away in a week, no matter how thoroughly detoxed. Sure, throw the magic in and everything's hunky-dory, but there is such a thing as relying TOO MUCH on the magic.

4. Drew's got a pair.

This is one ballsy woman. After what we see her face early on in the book, she seems to have this bottomless pit of determination, while still maintaining a healthy dose of "what if"? (Not like she lets that stop her. Like I said, she's got a pair.) I was cheering her on through the entire detox. That gave a REAL nice balance to the whiny high schooler she became any time her gift/power was involved (No, I'm not putting that bit down - considering her familial status and everything else, it almost makes more sense than just about anything else in the book).

All in all, it felt like the first half of the book is where Squires really took her time and thought out what she was writing. Maybe even first 2/3 - then it's almost as if a reminder popped up on the calendar and it became, "Oh, crap! Deadline!"

I do plan on reading other books in this series, so I can get a better feel for Squires as an author.
