Excellent book!

By Smart Shopper

All the books from this Author are excellent, and this one if no exception. There are many book in this genre which are "recipe" books, and few writers are capable to explaining the insights of the use and dynamics of psychic energy. Think of this book as your introductory college chemistry book, any true scholar of the occult arts will understand its value.

Book within a Book

By Celeste R. Heldstab

It's what you get for 4 bucks. LOTS of handwriting and highlighting - almost unreadable. I will reorder this book and probably give this copy away. Lesson Learned.
