## Most helpful customer reviews

7 of 8 people found the following review helpful.

A great work!

By L. Frazer

This is probably one of the best books I've ever read. A bit tedious to read, but exceptionally practical and useful today. It is really a course of study with actual prescribed exercises. I completely agree with the previous review and am glad to see this great work available to the public again. I highly recommend this to anyone interested in mental development.
