The Math Adds Up

By Meilnda W Burt

This was a strange tale of an arrogant young virgin queen being despoiled by an even more arrogant ogre king. She thinks she is too good for him but needs him to protect her realm. He feels that human's consider ogre's beneath them but he wants to despoil and perhaps impregnate the pretty little queen. According to my math that is about even. Would like to see a sequel where they end up together because they kind of deserve each other.

Sex was exciting. I like tales in which the women agree to, take charge of, and enjoy the sex. This fulfilled that.
