Well, I asked and wanted to know, lol

By Gwen Hankins

The author delivers realistic and fantasy type view of how writer's and those who participate in this type of sexual options actually live. How to meet and research and talk to people about this lifestyle or sexual preference. It is blunt, but handled in a such a way that someone who is not familiar with the material, lifestyle or sexual preferences has the resources to write with some authority. It was a little over the top for me--but then I asked \*chuckle\*. Good writing book for anyone wanting to write in this genre!

5 of 5 people found the following review helpful.

She knows what she's talking about!

By D. Charman

For anyone who wants a basic introduction into the world of Dominance and submission, this is a good place to start.

Ms. Dalton lives the lifestyle she writes about, and so you can trust the information she gives is factual. And because she's a good writer, the information is well presented in an easy-to-read format.

I recommend this guide for anyone who is thinking to use elements of D/s or BDSM in their own fictional novels.

3 of 3 people found the following review helpful.

Excellent resource for the vanilla author venturing into the world of BDSM

By Amazon Customer

This is a great book for an author who is wanting to write a story on BDSM or with elements of it in the plot but who does not have any experience in the lifestyle. Tymber Dalton covers all the major and minor points with thoroughness and a "pinch" of humor. This should be on the bookshelf/Kindle carousel of any writer looking to spice up their work.
